A Banker's Story

Realizing the dream of land ownership is the dream of many Americans. As the largest buyer and seller of residential and recreational properties across the United States over the last fifty years, National Land Partners is one of the most well-known and respected land developers in the industry. Our company's core mission centers on making our communities affordable to everyday Americans and their families through competitive Lot Loan Financing Programs offered by local banking partnerships.

This has proven to have been a mutually beneficial endeavor for all parties involved – the customer is able to obtain a lot loan for their dream piece of property, we here at National Land Partners are able to help a diverse range of families realize their dream of land ownership, and the bank is able to form a solid foundation, by seeing the customer through their lot loan and growing the relationship from there.

The main benefit of creating loan services for land is that a majority of our customers convert their lot loans into new home construction loans through the same bank. Our communities are built with the end-user in mind and we take pride in providing upscale amenities, luxurious features, and a prime location close to modern conveniences to make living in the peace and quiet of the relaxing countryside an ideal situation for any family. Many of our communities offer mildly restrictive covenants, a Property Owners' Association with elected Board Members, and an Architectural Review Committee – all of which assure the standards are upheld within the community and property values are well-maintained based on current market value/conditions.

Forming a relationship with one of National Land Partners' well-qualified, new property owners is a great way for your banking professionals to entice these customers to take advantage of your array of other banking services and features, too – *checking accounts, savings accounts, debit & credit cards, wealth management, personal loans, auto loans, lines of credit, life insurance, and more!* And, to think...it all started with the purchase of a beautiful, unspoiled piece of land in the country!
