
OUR COMMITMENT

We are committed to remaining a strong and influential leader in land sales, by:

- Continuing our fundamental principles of researching and inspecting hundreds of potential land opportunities every year, acquiring only a select few that meet our stringent requirements
- Developing only those communities that we could see ourselves living in, and offering them at recognizable values
- Establishing local bank relationships to provide excellent financing opportunities for prospective customers
- Assisting local communities through donations and charitable endeavors
- Establishing protective covenants to ensure the integrity of each community after its completion
